Re: Actuarial Impact Statement for the Riviera Beach Municipal Firemen's Retirement Trust Fund

Dear Mr. Voigt:

Enclosed herewith is a copy of a proposed ordinance which would amend the above-captioned plan as follows:

1. The benefit accrual rate for each year of service is raised from 2½% to 3% of average final compensation.

2. Average final compensation is revised to lower the number of years used in the average from five years to two years.

The effect of this amendment would be as follows:

	Before Amendment	After Amendment	Increase
Unfunded Accrued Liability	$448,926	$978,796	$529,870
Required City Contribution	85,282	152,227	66,945
% of Covered Payroll	9.8%	17.5%	7.7%

It is our opinion that the proposed changes are in compliance with Part VII, Chapter 112, Florida Statutes and Section 14, Article X of the State Constitution.
