Sylvia Blue, W 1st Street, stated that the literature left on her vehicle while at church was from a person who dumped feces in the waterway of the city and thought it was okay. She stated that the residents of the community were used to seeing slum and blight throughout the community because they were the ones putting it there and thusly did not desire development nor redevelopment.

Lisa Branon, Little Torch Street, stated that she do not believe that implications of voting for the amendment were clearly understood by the voters who were in support of the referendum. She stated that the city needed to work quickly in getting another plan in place in order to generate additional revenue.

John Archambo, Solid Waste Authority, stated a curbside recycling bin distribution program was available wherein bins with information leaflets would be delivered to residents throughout the city. He stated that the program was a way to generate additional revenue for the city.

Fane Lozman, E 13th Street, stated that a binder was available at the CRA that included information about the citizen's master plan. He stated that the plan was adopted in 2008 by the city council. He continued with stating that the plan was changed because the selected master developer could not afford the suggested redevelopment plan as presented and the board was advised by the former CRA Executive Director to terminate the agreement and put the RFP back out bid. He concluded with stating that he was not the chairman of the recall committee but was assisting the committee and the website was recallrivierabeach.com.

Gerald Ward, W 20th Street, stated that he felt his comments were too extensive for three minutes so he provided a one page summary of what he wanted to discuss. He continued with explaining the summary outline provided to the elected officials and staff.

Dee Cunningham, Old Dixie Highway, requested that the city council to cease in expending taxpayer dollars on fighting the task force. She stated that it was advised by the legal counsel for the task force to wait until the outcome of the referendum but the city proceeded which resulted in wasted expenditure of funds.

Mike Mahoney, Broadway, stated that the residents and business owners within the city needed to take pride in the appearance of the city. He stated that individuals took the time to provide input on the redevelopment of the marina and it was tossed aside and the elected officials should move forward with that plan which was adopted.

Bonnie Larson, W 27th Street, stated that the salary presented for the position within the City Manager's Office was a lot considering the current budget constraints. She suggested that the title and salary be revised to be conducive with the responsibilities. She concluded with stating employees would not be accountable for their actions unless they were made to be responsible for doing things contrary to the desires of the city council.

Norma Duncombe, LakeShore Drive, stated that the task force did not consist of revelers but of citizens who believed in what was right as it related to redevelopment of the city. She stated that she was taken aback at the attitude projected by certain elected officials as a result of the citizens standing up for what they wanted.

Steve White, Essex Lane, stated that the voters once again had been disrespected when their level of intelligence was questioned by the very ones whom they elected. He stated that redevelopment was desired; however, it needed to be a win win situation.

Tina White, W 4th Street, stated that the involvement of the seniors exercising their right to vote brought her much gladness. She stated that the city solicited and received \$24 million in marina improvement bonds from 1980 to 2002 and the utilization of these funds needed to be investigated. She continued with stating that in submitting public records request to respective departments, she was advised by members of staff that her requests were to be forwarded to the City Attorney and City Manager's Office and as of to date, her requests had not been fulfilled. She concluded with stating as a result of this action she hired an attorney who would be filing a lawsuit against the city.

Dr. Phillip Dukes, W 23rd Street, stated that the results of the election showed there was a paradigm shift in the city which was to do the right thing. He stated that some of the issues the present elected officials face were passed on to them; however, it was up to them to change the way business was conducted in the city.

Emma Bates, W 26th Street, thanked everyone who was instrumental in assisting with helping to get the referendum passed. She stated that the residents needed a council that would work with them and not against them. She stated that she would be filing a lawsuit against those who sought to sue her for exercising her right.

Warrie Leonard, W 23rd Street, stated that a meeting would be hosted by the Department of Transportation at Newcomb Hall on November 4th at 5:30 p.m. She stated that she was proud of her city and that before an individual make comments about the city they needed to live within its boundaries.

Bruce Herring, W 33rd Street, stated that a healing process needed to began and that the recall process was conducted in the city before and would be conducted if someone did not appreciate the way the any elected officials conduct business. He stated that it was good to exercise the right to vote and that more people should participate.

Lynne Hubbard, W 23rd Street, stated that no one bothered to correct Councilperson Pardo on her demeaning comments to the residents of their respective districts. She stated that those who signed the petition and those who voted for the referendum understood very well what they were signing and what they were voting for. Ms Hubbard stated that a charrette was held and a plan was comprised and adopted with the desires of the citizens.

Angela Wynn, W 35th Street, stated that all hope was not lost for the marina because there were individuals who were interested in investing in the city.

Public Comments shall begin at 8:00 PM unless there is no further business of the City Council, which in that event, it shall begin sooner. In addition; however, if an item is being considered at 8:00 PM, then public comments shall begin immediately after the item has been concluded.

At this point, Chair pro tem Davis stated that her concern was the language of the referendum which required the city to change some land uses. She stated that the elected officials and the residents of the city needed to work together in moving forward with redevelopment.
