RIVIERA BEACH MAIN PARKING LOT  
(West across the street from 3640 Avenue "E")

1. Southern Bell would like to be a good neighbor.
  - a. Without the new parking lot, across from the Riviera Beach Main Building, employees may cause a parking problem in the immediate vicinity around the building by parking illegally, instead of using the Broadway parking facilities. We would like to avoid this problem.
  - b. We will fence and landscape the parking lot and provide a 15 foot buffer zone between the parking lot and our neighbors to the north and south. This would be appropriately landscaped.
  - c. We would level, seed, and maintain on a regular basis, the unused part of the property to the west of the parking facilities.
2. Southern Bell will voluntarily limit the use of this property to that of parking facilities for the building at 3640 Avenue "E".
3. Southern Bell will execute a Unity of Title with the building at 3640 Avenue "E". A Unity of Title will combine the two parcels of properties; the Main Building and the parking lot into one legal entity.
4. The parking facilities at 3200 Broadway are in excess of 1,610 feet away, which may be too remote for convenient regular use.
5. Employee Safety.
  - a. No traffic lights on Broadway to afford safe crossing of the major five-lane U.S. 1.
  - b. Over 600 feet of the pedestrian route to the remote parking facility does not have a pedestrian foot path. Employees would have to use the roadway or walk on a neighboring lawns.

VOTING DISTRICT REALIGNMENT

1980 (APRIL)

CITY OF RIVIERA BEACH, FLORIDA

As a result of City Council directive, staff inventoried the voting district population in conjunction with the City's Charter requirements and presented alternatives, one of which has been adopted by Council.

The following is a brief description of the methods and process utilized by staff to develop alternate voting districts.

10-31-79

A. CHARTER REQUIREMENTS

"The City of Riviera Beach shall be divided into four (4) Voting Districts. However, the election shall be City-wide. The Mayor and the Candidates in Group 5 shall be elected at large and without regard to districts.

The City Council shall by ordinance set the boundaries of Districts 1, 2, 3 and 4 by January 1, 1975 and either confirm, modify or change the district by January 1, 1985 and every ten (10) years thereafter. Each district shall be as nearly as practicable equal in population and the districts must not vary more than eight percent (8%) in population at the time of creating said districts or the adjustment thereof every ten (10) years.

Elections shall be held in Districts 2 and 4 on the first Tuesday in April, 1976, and biennially thereafter. The candidates for the two offices of Councilmen to be elected, shall file and qualify by selecting the district in which he resides.

Elections shall be held for Districts 1 and 3 and Group 5 and the Mayor on the first Tuesday in April, 1977 and biennially thereafter. The candidates for Districts 1 and 3 shall file and qualify by selecting the District in which resides. The Mayor and the Candidates in Group 5 shall file and qualify without regard to District."

B. STAFF'S OBJECTIVES

1. To seek equal and fair representation for all citizens on the legislating body of the City.
2. To have the District boundaries coincide with readily ascertainable features, e.g. streets, canals or office public right of ways.
3. Meet the Charter requirements of no more than 8% variation in population in Districts.
4. To encourage City-wide interest in each election.

10-31-79

C. METHODOLOGY

1. Population estimates for the Districts were extrapolated by Traffic Analysis Zones and then generated for the four (4) existing Voting Districts.

Staff reviewed the following sources for population data:

- (a) 1970 Census Population (21,401)
- (b) 1974 Comprehensive Plan Estimates (21,401)
- (c) 1974 Voting District Study's 1976 projections by APB Census Tracts (29,810)
- (d) 1980 Area Planning Board Projections by TAZ (29,175)
- (e) 1980 Land Use projections by TAZ (33,345)
- (f) City's 1979 Housing Survey by TAZ

The Voting Districts created by this study are based on the population updated and projected to April of 1980 by the Land Use element and Housing element of the Comprehensive Plan. The base data for both studies were developed in-house by staff surveys. Compilations of this data were performed by the City's Planning Consultants: James Duncan & Associates and Mid South Engineering.

2. Population projections, the mean population per district and the limits of the 8% differential allowed were established as follows:
  - (a) Staff conducted a windshield condition survey of all housing structures by TAZ.
  - (b) Staff conducted the land use survey including all housing units by TAZ.
  - (c) Figures were updated by housing units expected to be occupied by April of 1980. (Building permits, approved site plans, etc.)
  - (d) The average of persons per household were derived by taking the land use projected populations from each TAZ and dividing by the total number of dwelling units. The procedure allows staff to project population for small block and neighborhood areas within TAZ's.
  - (e) The projected population data from the State, County and City estimates by TAZ were compared to the 1970 census figures and 1974 Voting District population estimates via a population table which consolidated TAZ's into census tracts.
  - (f) The projections by TAZ for 1980 were map and overlaid over existing voting district maps for compatibility to district boundaries and to develop population by Voting Districts.

- (g) Areas where districts over or under lapped were abstracted and population derived by utilizing housing unit counts from the housing survey and applying the TAZ's average household size.
- (h) Existing Voting District populations were mapped.
- (i) A series of blocks and neighborhood areas projected populations was overlaid over existing Voting District and TAZ's.
- (j) The projected population for April of 1980 is 33,345. Therefore in accordance with the City's Charter each district shall be 8336 with  $\pm$  667 for the allowed 8% variation.

After this basic data was assembled on individual maps staff prepared five (5) alternate boundaries for the four districts. After consideration of the objectives of this study staff narrowed the alternates down to two (2) and presented these for Council's consideration. Council selected Alternate 1A after it was modified.

In developing the alternate Voting Districts it was obvious to staff and other readers that the existing Voting Districts were very imbalanced. Particularly District No. 4 (Singer Island) which had more than a 100% variation from all other districts, thus it was logical and practical to shift that population via its district boundary eastward. Similarly the other districts were shifted eastward because the districts were lower in population as you move westward.

Staff in both alternates presented eliminated this imbalance and provided uniform districts not only in terms of population but also in terms of geographic areas, and neighborhood commonalities.

The Voting District alternate which was selected by Council is found on Map A.

6"	4,000.00
8"	6,600.00

CAPITAL IMPROVEMENTS CHARGE:

Imposed:

Except as otherwise provided by law, every property owner or developer whose property receives water service and/or sewer service from systems owned, supplied, or serviced by the City of Riviera Beach shall pay to the City a water and sewer capital improvement charge prior to the issuance of a building permit on each dwelling unit, or equivalent residential unit as follows:

\$ 742.00	Water Service
\$ 383.00	Sewer Service

Per Equivalent Residential Units\*

An "equivalent residential unit" is defined as an individual user, which from the City Water System, purchases not in excess of an average of three hundred fifty (350) U.S. gallons of water per twenty-four (24) hour period, and discharges not in excess of an average of three-hundred and fifty (350) U.S. gallons of sewage per twenty-four (24) hour period into the city sewer system during the single month of maximum use. Determination of the number of equivalent residential units applicable to a user shall be made by the City, and adjusted thereafter following a twelve (12) month experience record.

Exceptions:

No water and sewer capital improvements charges to the City shall be due:

- (1) With respect to property for which there has been paid a water and sewer capital improvements charge as of the effective date of this article
- (2) With respect to existing structures connected to the city water system and sewer system as of the effective date of this article.

- (3) All buildings or structures used for public worship by a religious society hereafter constructed in the City of Riviera Beach shall be and the same are hereby exempted from paying a sewer connection fee.
- (4) Any property improvement built before January 1, 1973.

USE OF FUNDS:

All funds derived from this source shall be used for Capital Improvements to the water and sewer systems.

STAND-BY SERVICE:

The regular minimum charge remains the same for water and sewer service while the water is turned off, plus a \$5.00 turn-off charge. When service is resumed there is a turn-on charge of \$5.00.

TESTING OF METERS:

The Department of Utilities shall have the right to test meters to determine their accuracy whenever it deems such action advisable. In addition, if a user demands a field test when, in the judgment of the Department of Utilities, the meter is operating correctly, the consumer shall pay a fee of fifteen dollars (\$15.00) for such field test, if the accuracy or registration of the meter is found to be not more than one-hundred and two percent (102%) of the actual volume of water passing through the meter.

MINIMUM CONDITIONS FOR SERVICE:

The Department of Utilities reserves the right to establish the minimum conditions under which service may be installed.

TERMS OF PAYMENT FOR UTILITY SERVICE:

All accounts are due and payable ten (10) days from the date of mailing. If accounts are not paid within thirty (30) days a \$7.00 service charge will be applied. The service will then be discontinued without notice. Service will not be resumed until full payment is made.

If re-connection is not made within fifteen (15) days after service is disconnected for non-payment then the billing deposit shall be applied and 8% interest shall be charged from the date of the mailing until paid. Service will not be resumed until all unpaid balance plus interest, a new billing deposit, and a new connection charges are paid.

If the deposits do not satisfy the payment of a delinquent account such account shall run against the recorded owner of the property from the date said owner is billed and the lien imposed against the said property for the amount of the bill.

All bills must be paid in full. No partial payments are accepted. Checks or money orders must be made payable to Riviera Beach Water and Sewer Department. No checks will be accepted made out by other than Customer.

SECTION 4.

SEWER SERVICE

Application for Service:

All applications for sewer service are to be made to the

office of the water and sewer department.
